

FEBY ANGELA H. FELICES

Full-Stack Developer | UI/UX Designer | QA Specialist

Location: San Jose, Malaybalay City, Bukidnon 8700 | **Phone:** +63 994 445 0774

Email: felicesfebyangela@gmail.com | **Portfolio:** febyfelices.tech

Professional Summary

Full-Stack Developer, UI/UX Designer, and Quality Assurance (QA) Specialist. Combines strong technical development skills across React and Laravel with an eagle-eye focus on UI audits, accessibility, and functional testing. Proven experience modernizing legacy interfaces, building backend data modules, and handling end-to-end QA testing to secure stable software releases. Passionate about bridging the gap between seamless visual design and bulletproof software reliability

Skills

- **Programming Languages:** PHP | JavaScript | HTML5 | CSS3 | C
- **Frameworks & Libraries:** React.js | Laravel | Node.js | Express.js | Next.js | Angular.js | Vue.js
- **Databases:** MySQL | MongoDB | Firebase | PostgreSQL
- **Design & QA Testing:** UI/UX Design | Figma | Component Design Systems | Manual Functional Testing | UI Auditing
- **Tools & Infrastructure:** RESTful API Integration | Android Studio | CRUD Operations
- **Networking & IT Support:** Cisco Packet Tracer | VLAN | Subnetting | OSPF | DHCP | TCP/IP | CCNA 1–3

Work Experience

Infinity Hub Davao City, Philippines

Full-Stack Developer, UI/UX Designer & Quality Assurance (QA) Specialist Intern | 02/2026 – 05/2026

- **Quality Assurance & Bug Hunting:** Handled comprehensive, full-system QA testing across internal platforms, systematically catching hidden design flaws and functional edge-case bugs early to ensure smooth, production-grade releases.
- **UI/UX Refinement & Modernization:** Audited and overhauled outdated user interfaces, transforming dated legacy layouts into modern, highly aesthetic, intuitive, and user-friendly web interfaces.
- **Full-stack Featured Development:** Engineered and implemented a custom Data Formatting Module to clean up backend database structures and systematically handle complex, high-volume business data payloads.

Projects

RJ-Studio Design: Architectural CRM & Construction ERP System | <https://rjstudiodesign.me/>

- A web portal for architects and construction teams that links design workflows with physical project management. It features client appointment booking, material inventory logs, budget tracking, and dashboards to manage blueprint portfolios and staff schedules. Stack: React, Laravel, MySQL.

VertiGrow: Smart Vertical Farming Monitoring System

- A web platform for a smart vertical farming project that connects with IoT sensors and solar components. It handles real-time data using MongoDB and Firebase to display dynamic agricultural updates and environment metrics.

VertiGrow Mobile App

- A Kotlin-based Android application for vertical farming that syncs with Firebase for real-time tracking. It features a multi-layer dashboard with sensor graphs, live alert systems, and a Fuzzy Logic system for automatic watering control and manual pump overrides.

Multi-Tenant AACCU^P Document Platform

- A multi-tenant Laravel application for task tracking and file management across university departments. It manages secure file storage, task progress monitoring, and document organization for institutional audits.

University Training and Seminar Management System

- A training and seminar management platform built with the MERN stack. It manages event registrations, user schedules, and administrative coordination tools for university staff.

Kitty Cross Road: 2D Arcade Game

- A Java Swing arcade game where players guide a feline character across procedurally generated roads, train tracks, and rivers. It includes a complete main menu system, interactive audio loops, and a progressive score tracking system that increases in difficulty

Education

Bachelor of Science in Information Technology (BSIT) | *August 2022 – June 2026*

Bukidnon State University, Malaybalay City, Bukidnon | Graduated Cum Laude

Awards, Accolades and Certifications

- **2026 | Cum Laude Graduate Honors** | Bukidnon State University
- **2025 | Participant**, ASEAN Green Entrepreneurship Hackathon | P2A Platform
- **2024 | CCNA 1, 2, & 3 Certified** | Cisco Networking Academy (VLAN, Subnetting, Routing Protocol Basics)
